

Reference Letter for Kian Lütke

To whom it may concern,

This letter serves as a formal reference for Mr. Kian Lütke, who has been working with Aluxus Terrassenüberdachungen GmbH as an external contractor since June 2016. Mr. Lütke continues to collaborate with the company as of January 2025. During this time, he has contributed as a Full Stack Developer, IT Consultant, and DevOps Engineer, playing a crucial role in the design, development, and deployment of multiple IT projects within the company.

His scope of work includes:

- Designing, developing, and deploying both customer-facing and internal tools to improve operational efficiency.
- Creating a customer portal capable of calculating precise measurements based on hundreds of input parameters.
- Implementing custom technical drawings using the Canvas API, fully integrated into our software suite for account management, email automation, and financial services.
- Developing a Load Carrier Management System using modern web technologies.
- Setting up, maintaining, and administering servers, as well as designing and maintaining REST APIs.
- Implementing CI/CD automation and profiling React applications for performance optimization.
- Building PDF automation solutions for dynamic document generation.
- Managing cloud infrastructure using AWS services such as EC2, S3, Lambda, CloudFormation, and DynamoDB.
- Developing custom WordPress plugins.
- Integrating our finance software (Xentral) into the broader IT landscape, including automated invoicing, modification of existing orders, and migrating customers between databases.
- Assisting in migrating Xentral from an on-premise solution to a cloud-based environment.

Throughout his engagement, Mr. Lütke has demonstrated exceptional technical expertise, reliability, and a proactive approach to problem-solving. He consistently
